- 5. Public Speakers
- 6. Executive Session
- 7. Adjourn

Board of Municipal Utilities Work Session Minutes April 4, 2017 201 Miller Road Avon Lake, Ohio

The work session was called to order at 6:00 PM.

Present: Mr. Dzwonczyk, Mr. Phillips, Mr. Rickey, Mr. Rush, and Mrs. Schnabel.

Also present: CUE Danielson, WPCC Manager Baytos, WFP Manager Yuronich, Engineering Services Manager Gaydar, Councilmember Fenderbosch (arrived at 6:10 PM), and Morning Journal Reporter Martin.

WPCC Manager Steve Baytos provided an overview of some of the recent projects they have performed in-house, including sealing the digesters, fixing the grit system, and fixing the grinder at the four-plex. They are performing more lab experiments and installed online meters measuring pH, dissolved oxygen, and flow. By performing the work in-house, staff has saved \$200,000 to \$300,000 during the last four years. Similarly, in order to help keep costs down, all vacation time at the plant this year has been covered through scheduling (rather than overtime). For scale perspective, Mr. Baytos told the Board that the plant treated approximately 1.9 billion gallons of wastewater last year, removed about 10,000 wet tons of solids, and took about 8,000 pounds of phosphorus out of the waste stream.

WFP Manager Greg Yuronich stated that the construction is winding down at the water plant and that washwater recycling was started the previous week. Barring algal toxin events, up to 5% of the plant's forward flow may be from this recycle stream. This will save operating expenses at both the WFP and the WPCC.

Both were asked by the Board about wish-list items. Mr. Baytos indicated that he will soon need a lab analyst/pretreatment coordinator. Mr. Yuronich indicated that he looks forward to getting back up to full staffing and then looking at ways to further improve security and resiliency and to inspect older facilities/equipment to assure it is operating as efficiently as possible.

CUE Danielson then discussed draft job descriptions for CUO, Engineer, and Underground Asset Locator. Members provided comments, and the CUE requested any additional comments be provided to the CUE by the end of the month.

The CUE then discussed the open Community Outreach Specialist position and indicated the major focus for the position during the next few years would be lateral and sewer separations, along with outreach regarding all that we do for our customers and how that affects rates. Board members and the CUE discussed that they collectively wanted the position to be more "out in the community" and in front of customers—both one-on-one and presenting at meetings. The best-fitting applicant should become comfortable being a face of the organization and should regularly interact with the Board to better understand priorities.

The work session adjourned at 7:07 PM.

John G. Dzwonczyk, Chairman

Todd A. Danielson, Clerk

Board of Municipal Utilities Regular Meeting Minutes April 4, 2017 201 Miller Road Avon Lake, Ohio

Call to Order - Roll Call

The meeting was called to order at 7:16 PM.

Present: Mr. Dzwonczyk, Mr. Phillips, Mr. Rickey, Mr. Rush and Mrs. Schnabel.

Also present: Chief Utilities Executive Danielson, WPCC Manager Baytos, Engineering Services Manager Gaydar (left at 8:39 PM) Councilmember Fenderbosch (left at 8:51 PM), and Morning Journal Reporter Martin (left at 8:39 PM).

Approve Minutes

Chairman Dzwonczyk presented the minutes of the March 21, 2017, Work Session and the March 21, 2017, Regular Meeting. With the correction to Mr. Gaydar's request for an Engineering Technician, the minutes were ordered to stand and be distributed as presented.

Public Speakers - None.

Correspondence - None.

Expenditures

Following review of expenses dated April 4, 2017, for funds and amounts as follows, Mr. Rush moved, Mr. Rickey seconded, that all be approved and paid per budget:

Water Fund 701	\$ 133,480.47
Wastewater Fund 721	\$ 196,905.90
MOR Fund 703 ETL1	\$ 15,169.50
MOR Fund 762 ETL2	\$ 5,515.66
LORCO Fund 749	\$ 1,441.07
Sewer Constr 724	\$ 248,993.40
Lateral Loan 765	\$ 11,300.00

Ayes: Dzwonczyk, Phillips, Rickey, Rush, Schnabel

Nays: None Motion carried.

45s Sewer Separation Project Scope Change

The CUE presented a request to amend the scope of the design project to include design of an oversized-pipe-section of Lake Road sanitary sewer to hold and slow storm-induced flow in the sanitary sewer. The storage would be the first of a number of larger sections of pipe and/or offline storage in order to reduce chances for overflows into Lake Erie and basement backups. Board members indicated concern regarding

whether this was the most appropriate use of money and whether it would be more appropriate for the City do more on the stormwater side to divert storm flows before finding its way into the sanitary sewer. If millions of dollars must be paid by City residents to address storm flows (either through wastewater rates or taxes [stormwater]), members felt it would likely be more appropriate to spend them addressing the storm flows before entering the sanitary sewers, as that may cost less and address more issues. Members suggested meeting with Sewer Committee members and the collective staff and consultants to establish an appropriate path forward regarding stormwater management before money was spent on storage within the sanitary sewer system. The Board, therefore, tabled the motion for further review at a meeting in May 2017.

Reports/Updates

Customer Service Clerk: The Civil Service Commission certified the Customer Service Clerk test results on March 30, 2017, and provided the CUE the top five applicants' information. Interviews are being scheduled for the week of April 3, 2017. Pending interviews, background check, and physical/drug screening, staff hopes to notify the Board at its May 2, 2017, meeting that a new Clerk has been hired.

Project Updates:

Water plant: The new attenuation basins are complete and in service. Work continues on the removal of the old attenuation basin, with final regrading of the site and fence installation following.

Water Tower: Welding continues on the bowl. X-rays of the welds have shown several areas that need corrective action, which Landmark has agreed to do. The project remains nearly on schedule for the bowl to be completed by early May.

WPCC: Concrete work on the new headworks is complete. New UV equipment will start to be installed next week. Modification to the new grit chamber continues and modification to the east aeration basin is scheduled to start in the next 2 weeks.

Lateral Notifications: Following the Council's passage of the Resolution of Necessity, requiring property owners in Avon Lake to separate their laterals, staff has sent out 556 (up 190 since last meeting) of the approximately 1,269 letters that will be sent both to owners who either haven't had their laterals inspected or owners who have had their laterals inspected and still have work to do. The letters' response rate has doubled since the last update. Fifty-five inspections (10% response, up 37 from last meeting) can be attributed to the letters.

This is part of the larger lateral separation program, which is still progressing well. As of March 30, 2017, letters have been sent to 2,931 residents indicating that they may have clean water entering their sanitary lateral and requesting Avon Lake Regional Water be contacted to determine whether this may be the case. To date, 2,045 (70%) had responded (up 66 since 3/8/17). Of the 2,045, 1,419 had either separated laterals or already had separated laterals and 626 either had problems or are believed to have problems. By extrapolation, approximately 1,200 (626 + ~68% of homes not inspected) may need to separate laterals. See attached table/graphs for more information.

Lateral Loan Program Since the last Board meeting, six additional agreements for the Lateral Loan Program have been executed, bringing the total to 61 properties, with \$205,000 (total) committed and \$77,200 paid so far. The average loan request is for approximately \$3,350.

CUE Action Items:

Program to help Engineering Service Manager collect and archive institutional knowledge: Once the new engineer is hired, he/she will reinstitute the GIS program and work with staff to gather institutional knowledge and document it in GIS. Do we need additional part-time clerical help: The time requirement for the lateral separation program is 1+ FTE. Once the new Clerk is hired, we intend to keep the existing temporary employee potentially for much of the remainder of the year to get through the heaviest of the lateral work and allow the new clerk to focus on learning many of the skills required for the job.

ETL2 Design-Build Project: There was a question regarding whether the ETL2 design-build project could be awarded because it was over the originally budgeted amount. Neither, Ohio code (ORC 153.693), City Ordinances, nor Avon Lake Regional Water Regulations tie award to budgeted amount. Rather, award is based upon qualifications.

Verify that drug testing/background checks will be accomplished for all new employees: This will be done for all new employees, including summer help.

Personnel Development and Quality Management: We are working with an independent consultant with familiarity and expertise in the various quality management approaches. He will provide information on several and take us through a half-day session to help us determine an appropriate path forward.

Chairman/Committee/Members Reports

Chairman Dzwonczyk reported he recommend staff work to repave the bike paths on Lake Rd. from Jaycox to the west end of Avon Lake from damage during water breaks.

Mr. Rickey reported he attended the Lorain County Commissioners quarters where Pheasant Run was discussed which could possible positively affect LORCO.

Mr. Rickey would also like to note Backflow Prevention Tests are due by May 25, 2017.

CUE Report

The Board was invited to attend this year's annual employee appreciation and awards breakfast scheduled at 8:00 AM, Friday May 5, 2017 at the Avon Lake Public Library.

Miscellaneous

None.

Executive Session

Mr. Rush moved, Mr. Rickey seconded, to meet in Executive Session as allowed by ORC 121.22 (G) (1) to discuss employee matters, (G)(3) to discuss legal matters, (G)(4)

to discuss negotiations, and (G)(6) to discuss security matters and to include the Chief Utilities Executive in the discussion.

Ayes (per rollcall vote): Dzwonczyk, Phillips, Rickey, Rush, Schnabel Nays: None Motion carried.

The Board reconvened at 9:40 PM

Adjourn

As there was no further business, Mrs. Schnabel moved, Mr. Rush seconded, that the meeting adjourn at 9:40 PM.

Ayes: Dzwonczyk, Phillips, Rickey, Rush, Schnabel

Nays: None Motion carried.

Approved April 18, 2017

John G. Dzwonczyk, Chairman

Todd A. Danielson, Clerk

Avon Lake Regional Water MEMORANDUM

To:

Board of Municipal Utilities

From:

Todd Danielson & Steve Baytos

Subject:

Agenda Items - April 18, 2017

Date:

April 13, 2017

Members Rush and Schnabel and the CUE will not be in attendance at the April 18, 2017, meeting.

<u>Item 4A1</u>: Customer Service Clerk – SCB/TAD

The top five candidates were interviewed by a team of three. The team collectively felt that several were qualified. Pending successful completion of the physical, drug screening, and background check, Nicole Huerner will begin as a Customer Service Clerk at Step 1C in the wage scale on May 1, 2017. With her placement, staff will receive the next candidate's information and will interview the candidate in the upcoming weeks. Following that, staff intends to hire one additional clerk in order to continue with the lateral separation program, which will continue through mid-2019. With intended retirements of bookkeepers at the end of 2018 and mid-2019, hiring now should be no more expensive than hiring a temporary employee and would provide better service to our customers.

<u>Item 4A2</u>: Project Updates – SCB

Water plant: The project is moving into the closeout phase with regrading, pavement, and landscaping either on-going or upcoming.

Water Tower: The majority of the defective welds have been redone, and testing shows they meet criteria. Overall schedule has slipped by a few days and may, hopefully, be made up.

WPCC: Operations personnel will be moving out of the trailer and into the WPCC administration building during the remainder of this week. Other parts of the project remain on schedule.

<u>Item 4A3</u>: Lateral Updates – TAD

With the abrupt departure of our temporary employee, no additional Resolution of Necessity letters have been sent during the past two weeks, and the spreadsheet has not been updated.

The lateral separation program is still progressing. As of April 13, 2017, letters have been sent to 2,932 residents indicating that they may have clean water entering their sanitary lateral and requesting Avon Lake Regional Water be contacted to determine whether this may be the case. To date, 2,077 (71%) have responded (up 32 since 3/30/17). Of the 2,077, 1,443 either have separated laterals or already had separated laterals and 634 either have problems or are believed to have problems. By extrapolation, approximately 1,200 (634 + ~67% of homes not inspected) may need to separate laterals.

Board of Municipal Utilities Write-Up for April 18, 2017 Page 2 of 2

Since the last Board meeting, two additional agreements for the Lateral Loan Program have been executed, bringing the total to 63, with \$213,000 (total) committed and \$83,600 paid so far. The average loan request is for approximately \$3,380.

Item 4A5: CUE Action Items – TAD

Below are responses to questions asked by the Board:

Are as-built plans provided following plant construction projects: As-built plans are generally provided after construction projects and are included in the current Storage Improvements Project.

Outreach Specialist to Board meetings: The CUE will have the next Community Outreach Specialist attend Board meetings at regular intervals.

Phone service: Staff continues to investigate the most resilient, cost-effective solution.

Storm drainage in the 45s: Pubic Works interacted with HDR to look at several storm intensity scenarios and opted to design the storm sewer for the "10-year" storm.

Citywide stormwater management: A small-group meeting is being scheduled tentatively for the first week of May. The outcome of this meeting would establish the path forward for discussions regarding citywide stormwater management.

Personnel Development and Quality Management: We are working with Corporate College to develop an appropriate processional development program for our staff and will meet with an independent consultant on May 30, 2017, (Members Rush and Schnabel will take part) to review various quality management programs to determine the best approach for our organization.
